EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In claim 14, line 1, "claim 2" has been changed to --claim 1--.

(End of Amendment)

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: Hammarstrom et al. (U.S. Patent No. 6,044,142) teach an interface means between a network switch (SSP) of a public intelligent network and a CTI server means wherein said interface means is adapted to directly communicate between a service switching function device having a service switching functionality and included within said network switch and said CTI server means (Fig. 1 and column 7, line 26 through column 8, line 18). However, as per claim 1, prior art of record fails to teach, or renders obvious, alone or in combination, the interface as described in claim 1 further includes a CTI call handling device adapted to receive from the CTI server means a CTI call handling message, and to perform on a call associated with the CTI call handling message at least one CTI call service scenario. Prior art also fails to teach the interface as described in claim 5 further includes a mapping device adapted to receive from the SSF device within the network switch (SSP) a public switching call handling message, and to perform on a call associated with the public switching call handling message at least one public switching call service scenario.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
